PROFILE

I am a passionate and adaptable software developer with a strong foundation in both frontend and backend technologies. With hands-on experience in building responsive, scalable, and user-centric web applications, I specialize in using modern frameworks such as React, Django, and PHP to deliver clean, maintainable code.

I have a solid understanding of UI/UX principles and enjoy creating intuitive interfaces that enhance user experience. My technical strengths include HTML, CSS, JavaScript, Python, and version control using Git. I am always eager to learn new tools, solve challenging problems, and contribute to meaningful projects in dynamic environments.
